

VP700

Colour Label Printer

VP700 LABEL REWINDER / UNWINDER (01A)

Our range of motorized core holders for **VIPColor VP700** printers can handle labels **up to 240mm wide**, and rewind or unwind rolls having an **outside diameter up to 350mm – approx. 500 linear meters** (contact us for the availability of different outside diameter).

Rolls are Rewinded / Unwinded onto a **3" core holder** and the possibility to adjust the direction of rotation, clockwise or counterclockwise, allows to rewind / unwind labels both face in and face out. Thanks to its revolutionary design and toughness, our (RW) Rewinders and (UW) Unwinders are perfect for high and heavy duty jobs.

The motor is located inside the core holder and once the job is done, users can easily remove the core holder. The device can be ordered as (RW) rewinder or (UW) unwinder – different part number - so depending on its use it can be placed in front or behind the printer.

Motorized Core Holder (RW) Rewinder

P/N: VP-700-RW01A

P/N: VP-700-RW-SW (double sense switch)

Motorized Core Holder (UW) Unwinder

P/N: VP-700-UW01A

* Includes an adapter plate

Technical Specifications:

Core: 3" (76mm) Fixed Core Holder

Roll Diameter up to: 10" (250mm)

Outer Disc included

Label Width up to: 8,6" (220mm)

Speed: it is automatically adjusted through the tension arm in order to work smoothly with VP700 at 6 or 12 ips.

Power Requirements: 100-240VAC / 2,5 A at 24V

Box Weight: 16,5 Kg

Box Size: 52x45x42 cm

Agency Certification: CE, FCC, c(Nemko) us, RoHS compliant
